

World Conference on Disaster Reduction

18-22 January 2005, Kobe, Hyogo, Japan

Title	5th Workshop for "Comparative Study on Crisis Management"
Organizations	Research Center for Disaster Reduction Systems, Disaster Prevention Research Institute, Kyoto University Crisis Management SIG (Significant Interest Group)
Speakers	河田 恵昭 (京都大学防災研究所巨大災害研究センター教授・センター長) 林 春男 (京都大学防災研究所巨大災害研究センター・教授) 佐土原 聡 (横浜国立大学大学院環境情報研究院・教授) ポール吉富 (京都大学防災研究所巨大災害研究センター・研究員) 浦川 豪 (京都大学防災研究所・COE研究員) 正木 千陽 (ESRIジャパン(株)・代表取締役社長)
Report	<p>The purpose of this workshop is to explore the possibility of developing "Intervention GIS (Geographic Information System)" for facilitating crisis management activities. Three papers have been read 1) by Professor Satohara on the real world applications of GIS for effective emergency management, 2) Mr. Yoshitomi on user friendly but highly sophisticated GIS technologies, and 3) Dr. Urakawa on the organizational issues for promoting GIS at local governments. Three presenters in addition to Mr. Masaki, the president of ESRI-J, joined a panel discussions to make a dialogue with the audiences about how to facilitate the GIS use in emergency management context.</p>
