Its official English name is 'Natural Disaster Youth Summit 2005 in Hyogo.' The purpose of this forum was to discuss 'the importance of human lives' with children around the world beyond the differences of country, language and religion.</p> <p>The conference was broadcasted globally by the Internet live streaming. We also had a teleconference with Iran, Armenia and Taiwan by connecting the conference site and those three countries.</p> <p>Painting exhibition was held with the title of 'Think about the earthquake through children's pictures at Yumebutai at the same time. Those paintings are painted by the children whose countries were suffered from natural disasters.</p> <p>Human has to live with the dangerous situation occurred by nature. We can prepare and decrease the damage from natural disasters.</p> <p>JEARN supported children in Bam, Iran soon after the earthquake by utilizing the Internet.</p> <p>We can support them though the experience of Hanshin Awaji Great Earthquake.</p> <p>Children in Bam are now recovering little by little. The reports from Iran tell us that the ICT created a miracle from the ashes of Bam.</p> <p>We are still continuing the project as the Natural Disaster Reduction Education in the Information Age, by connecting the classes and children online globally.</p>
