### Report
The General Insurance Association of Japan (GIAJ) and the Radio Committee of the National Association of Commercial Broadcasters in Japan jointly held a Radio Forum to commemorate the 10th anniversary of the Great Hanshin-Awaji Earthquake.

The purpose of this Forum is to make radio announcers understand the role of the radio when we have a large-scale earthquake, the importance of daily preparation for disasters, earthquake insurance, etc., by exchanging information and to deliver such information to their listeners.

The Forum consisted of following 3 parts.
- **1st Keynote Speech, "Expectation for the earthquake insurance and radio broadcasting"
  
  Mr. Eiji Nishiura, Executive Director of the GIAJ explained that losses caused by earthquakes are not covered by just fire insurance policy and therefore, homeowners need to buy earthquake insurance on dwelling risks as an optional rider to fire insurance policy.
- **2nd Keynote Speech, "The role of radio in the time of an earthquake"
  
  Mr. Yoshiteru Murosaki, President, National Research Institute of Fire and Disaster made a speech on the role of radio in the time of an earthquake and what kind information the radio announcer should deliver to their listeners.
- **Panel Discussion
  
  Panelists (radio announcers), who experienced earthquakes and other natural disasters, discussed the role of radio broadcasting in the time of disasters and sought more effective ways to provide necessary
Information to the public.
About 580 people including announcers from 101 radio stations, insurers and commercial broadcasters participated in this Forum to better understand the role of earthquake insurance and the role of radio in the time of an earthquake.
