

Human Resource T&D for Response to Public Emergency in China

Dr. Li Zhipeng

Division of Emergency Response, Office of
Health Emergency, Ministry of Health ,PRC

<http://www.moh.gov.cn>

Public emergency status

- Natural disaster
- Earthquake
- Flood
- Typhoon
- Tropic storm
- etc

PHE challenge

- SARS
 - 5327 in patients, 349 deaths in China mainland 2003
 - 24 provinces(mainland) stricken
- Highly pathogenic avian influenza
 - 16 provinces(mainland) stricken

Strategies and actions on PHE human resource T&D

- strengthen the leadership on T&D
- draw the T&D plans
- improve the ICT
- increase the investment on T&D
- strengthen the additional medical education
- T&D on temporary medical teams

Proposal

The international cooperation on PHE human resource T&D should be strengthened. The international organizations should play an active role in this field.

THANK YOU!
