

EWS of indigenous communities in Yucatan Peninsula, Mexico

SGP The GEF Small Grants Programme

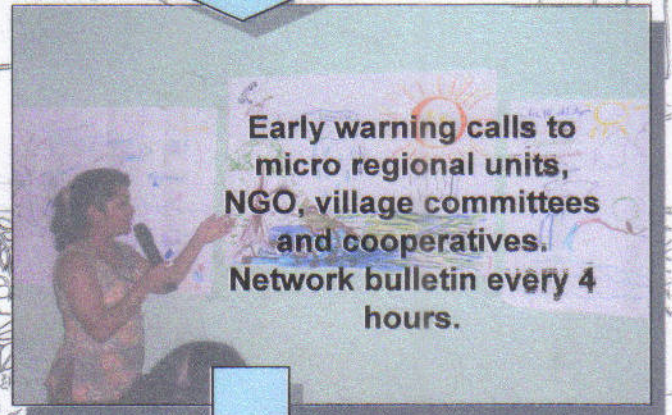

Emergency plans and committees in 75 villages, including alert and evacuation brigades.

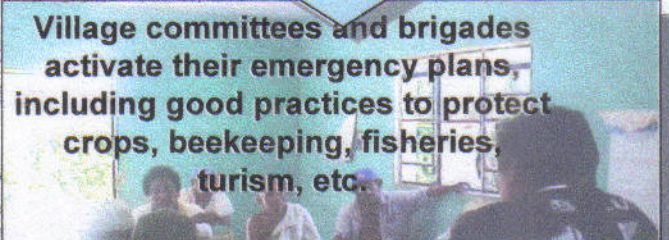

before

after

Rapid damage assessment done at community level. Needs analysis done at micro regional level. NGO and indigenous organisations network to negotiate with governments

Early warning calls to micro regional units, NGO, village committees and cooperatives. Network bulletin every 4 hours.

Village committees and brigades activate their emergency plans, including good practices to protect crops, beekeeping, fisheries, tourism, etc.

Local brigades support local people's evacuation to pre-established shelters, mostly relatives' houses.
