"I am doing this survey on behalf of my 20-year-old daughter, who has spastic quadriplegic cerebral palsy and profound mental handicap. She is fully dependent for all activities of daily living."

"They do not know how to find me as they do not have a register. Their cars and trucks cannot take me and my wheelchair. The shelters they give us when we have floods are not accessible."

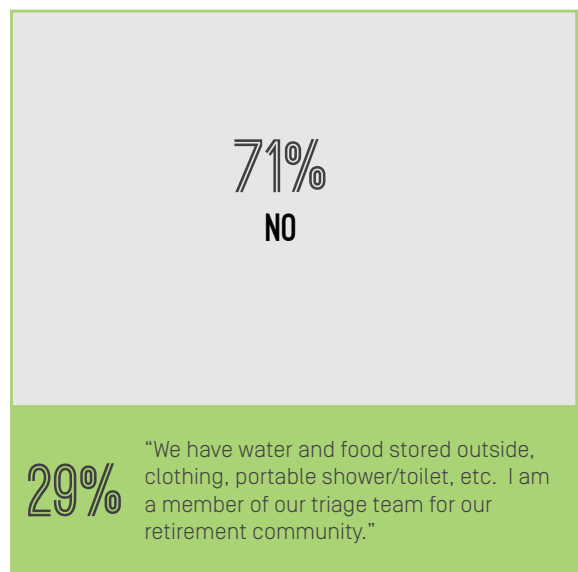

"I am totally dependent on my family / caregivers who do know what to do to help me, as long as they are unaffected by the disaster. We have an outside hoist from our house to enable my wheelchair to be exited."

TOP 5 HAZARDS OR DISASTER RISKS FACED BY SURVEY RESPONDENTS
